

Spread the word!

Refer another school to the Yes Futures programme and you'll both get FREE student places.

We are looking for new schools to join the Yes Futures programmes and would really appreciate your support in **recommending our programmes** to your colleagues and fellow schools.

Our referral scheme enables you to **receive completely free places** for your students. This offers you further subsidies for the programme and enables even more of your students to benefit.

How does it work?

Step 1: Tell your colleagues in another school about us.

Step 2: When the school signs up, they give your name as their referral.

Step 3: You both receive an extra TWO free student places in your next cohort.

This can happen as many times as you like – so if you refer 5 schools, you will receive 10 free student places!

Please note that any free student places are on top of the minimum cohort size.

Find out more:

To find out more about the referral scheme, or to put us in touch with another school, please get in touch:
