

# IMPACT SUMMARY

## September 2018 Programmes

In our September 2018 cohort, we supported **260** children to fulfil their potential.

The significant impact of our programmes is clearly evidenced.

By the end of our programme:

**77%** of students are more motivated to achieve at school

**80%** of students feel more prepared for the future

**92%** of students want to be successful in school.

**96%** of students have enjoyed the programme

*Based on student questionnaires from our Finding Futures (primary) and Rising Futures (secondary) programmes.*

Our programmes have a life changing impact on students like Billy...

Initially Billy\* was reluctant to participate in the Rising Futures programme, and adamant that there was **no point in investing time in his future**; his self-worth was very low.

However, as the programme progressed, Billy made steady increases in his self-confidence and he **began to talk more positively about himself**. In particular, he was delighted to have made new friends on the various trips and seemed to **take real pride** in this.

By the final coaching session, Billy shared with his Coach that he had decided to try and **get good grades in his exams** and had a **plan for the future**. Billy's teacher also noted how *"happy and engaged"* he appeared to be.

*\* Name and photograph changed to protect the student's identity.*

Students have made measurable improvements in four key Talent areas.

Using our award-winning Talent Toolbox, students provide strong examples with clear evidence of their progress in the four Talent areas. By the end of our September programmes:

**77%**

of students had increased their **confidence**

**80%**

of students had increased their **resilience**

**80%**

of students had increased their **communication**

**74%**

of students had increased their **self-awareness**

**96%** of students improved in **at least one** Talent area.

*"Both in and outside of school, Jack is more willing to believe he can achieve his goals. Jack is happy to make new friends and is generally happier and more confident."* – Jack's (Year 6) Mum

*"The programme has made me a better person, I am more confident, and I can talk to people that I wouldn't have talked to before."* – Scarlett (Year 9)

Our network of partners and supporters have enabled us to develop and grow our impact.
